

## PRODUCT CHARACTERISTICS

- Composed of embossed ABS panels which follow the shape of the vehicle internal sides;
- ABS white with smooth surface (on request available also Gray/Beige embossed)
- Plug & Play System easy to assemble using velcro and tape, avoid to drill the vehicles chassis;
- Possibility of customization with support brackets for furniture or other accessories;
- Available, on request, with thermal insulation;
- Modular kit of various components based on the request of body builders;
- Each component can be purchased individually
- Low impact on load-bearing parts and moreover the total weight of the panels is within 5% of the vehicle tare;
- In case of accident the panels can be replaced separately;
- Access to lights and other original devices is maintained so the normal maintenance can be carried out easily;
- The Kit can be dismantled and reassembled on another identical vehicle with the same size;
- The entire payload and load capacity is maintained;
- **Easy to wash also with pressure washer and steam cleaner, resistant to disinfectant;**
- Standard components can also be purchased on a single order;
