

## PRODUCT CHARACTERISTICS

- Composed of ABS panels specifically designed to provide the possibility of adding insulating material;
- **Insulating material and its installation are the responsibility of the body-builders;**
- Plug & Play System easy to assemble;
- Components designed to simplify the conversion activity and with provisions to make the use of roof or wall laminates easier;
- Modular kit of various components based on the request of body builders;
- Each component can be purchased individually;
- Components that can be used preferentially for vehicles that work at 0°;
- Low impact on load-bearing parts and moreover the total weight of the panels is within 5% of the vehicle tare;
- In case of accident the panels can be replaced separately;
- The Kit can be dismantled and reassembled on another identical vehicle with the same size;
- The entire payload and load capacity is maintained;
- Easy to wash also with pressure washer and steam cleaner, resistant to disinfectant;
