

## PRODUCT CHARACTERISTICS

- Composed of embossed ABS panels which follow the shape of the vehicle internal sides;
- **Possibility to choose between two color variants GRAY and BEIGE, always in ABS with EMBOSSSED surface, and in WHITE with SMOOTH surface**
- Plug & Play System easy to assemble using velcro and tape, avoid to drill the vehicles chassis;
- Easily customizable with the possibility of cutting windows on request (MOQ)
- Available, on request, with thermal insulation;
- Modular kit of various components based on the request of body builders;
- Each component can be purchased individually
- Low impact on load-bearing parts and moreover the total weight of the panels is within 5% of the vehicle tare;
- In case of accident the panels can be replaced separately;
- Access to lights and other original devices is maintained so the normal maintenance can be carried out easily;
- The Kit can be dismantled and reassembled on another identical vehicle with the same size;
- The entire payload and load capacity is maintained;
- Easy to wash also with pressure washer and steam cleaner, resistant to disinfectant;
